David Karp
Halex Development & Distributing
2 Orchard Drive
Durham, NH 03824

Dear David:

Upon completing tests with the Halex Magnetic Coil installed on one of our filtercarts, we have noticed a significant reduction in wear particles. Dowty Palmer-Chenard, Inc. has proceeded to install Halex Magnetic Coils on all its hydraulic filters in its Somersworth plant and will continue to do so on any new equipment.

I highly recommend the Halex Magnetic Coil, without exception, to anyone who wants to increase the life of machinery or equipment.

Sincerely,

Joseph Michaud
Maintenance Supervisor
